

巻頭言	Preface to the Special Issue of “Containerless Material Processing in Space” and Also in Relation to the 8th JCK Workshop on Microgravity Sciences.....O. MINSTER • 175
特集：国際宇宙ステーション時代の無容器材料プロセッシング	
(解説)	History of Electromagnetic Levitation Study under Microgravity in JapanT. HIBIYA • 176
【ISS 無容器プロセス装置と無容器プロセス国際協力チーム活動】	
(解説)	Present Activities of the Investigators Working Group (IWG) for the Electromagnetic Levitator (EML) on ISS—A Status ReportI. EGRY and D. VOSS • 178
(解説)	EML-Containerless Processing Facility for Material Science Research Onboard The ISS W. SOELLNER, A. SEIDEL, C. STENZEL, W. DREIER and B. GLAUBITZ • 183
(解説)	The ThermoLab Project: Thermophysical Property Measurements in Space for Industrial High Temperature Alloys H. FECHT, R. WUNDERLICH, E. RICCI, J. ÉTAY, I. EGRY, S. SEETHARAMAN and L. BATTEZZATI • 190
(解説)	ISS 搭載用静電浮遊炉の開発 石川毅彦・岡田純平・村上敬司・小川志保・越川尚清・柴崎浩一・山浦由起子・高田哲也 • 199
【無容器法による高温融体熱物性計測，構造解析実験】	
(解説)	静電浮遊法を用いた熔融ボロンの粘性測定 岡田純平・石川毅彦・渡辺勇基・P.-F. PARADIS・渡辺康裕・木村 薫 • 205
(解説)	静磁場印加電磁浮遊法を用いたレーザー周期加熱カロリーメトリー法による高温融体の熱物性計測 福山博之・小島秀和・杉江一寿・馬場雄也・杉岡健一・塚田隆夫 • 210
(原著論文)	Surface Tension of Molten Copper in Consideration of the Effect of Oxygen Partial Pressure under Microgravity Conditions during Parabolic Flight S. OZAWA, M. WATANABE, Y. KIYAMURA, K. MOROHOSHI, T. AOYAGI, M. TANNO, T. MATSUMOTO, M. ADACHI, A. MIZUNO, H. FUJII and T. HIBIYA • 215
(原著論文)	Zr 基合金の無容器凝固における時分割 X 線回折 水野章敏・岡 寛之・秋元俊彦・渡邊匡人・横山嘉彦・伊藤真義・小原真司 • 222
(解説)	X 線構造解析用の静電浮遊装置に関する要素技術開発 正木匡彦・野呂 誠・佐藤達也・山下義弘・岡田純平・石川毅彦 • 227
【無容器法による凝固・結晶成長】	
(解説)	過冷メルトからの準安定相創製栗林一彦 • 233
(解説)	Peritectic Alloy Rapid Solidification with Electromagnetic Convection D. M. MATSON, R. W. HYERS and T. VOLKMANN • 238
(解説)	Growth of Dendrites into Undercooled Melts under Microgravitational Conditions D. HERLACH and P. GALENKO • 245
学会からのお知らせ	 252

CONTENTS**Preface**

Preface to the Special Issue of “Containerless Material Processing in Space” and
Also in Relation to the 8th JCK Workshop on Microgravity SciencesO. MINSTER • 175

Special Issue: Containerless Materials Processing in Space

(Review) History of Electromagnetic Levitation Study under Microgravity in Japan
..... T. HIBIYA • 176

【Levitation Facilities in ISS for Containerless Materials Processing Research and Activities of International Collaborations on Containerless Materials Processing in Space】

(Review) Present Activities of the Investigators Working Group (IWG) for
the Electromagnetic Levitator (EML) on ISS—A Status ReportI. EGRY and D. VOSS • 178

(Review) EML—Containerless Processing Facility for Material Science Research Onboard The ISS
..... W. SOELLNER, A. SEIDEL, C. STENZEL, W. DREIER and B. GLAUBITZ • 183

(Review) The ThermoLab Project: Thermophysical Property Measurements in Space for
Industrial High Temperature Alloys
..... H. FECHT, R. WUNDERLICH, E. RICCI, J. ÉTAY, I. EGRY, S. SEETHARAMAN and L. BATTEZZATI • 190

(Review) Development of The Electrostatic Levitation Furnace (ELF) for the International
Space Station (ISS)T. ISHIKAWA, J. T. OKADA, K. MURAKAMI, S. OGAWA, N. KOSHIKAWA,
K. SHIBASAKI, Y. YAMAURA and T. TAKADA • 199

【Thermophysical Properties Measurement and Structure Analysis of High-temperature Liquids with Applying Various Containerless Techniques】

(Review) Viscosity Measurements of Liquid Boron Using Electrostatic Levitator
..... J. T. OKADA, T. ISHIKAWA, Y. WATANABE, P.-F. PARADIS, Y. WARANABE and K. KIMURA • 205

(Review) Thermophysical Property Measurements of High-Temperature Melts by
Laser Modulation Calorimetry using Electromagnetic Levitation in Static Magnetic Field
..... H. FUKUYAMA, H. KOBATAJE, K. SUGIE, Y. BABA, K. SUGIOKA and T. TSUKADA • 210

(Original Article) Surface Tension of Molten Copper in Consideration of the Effect of
Oxygen Partial Pressure under Microgravity Conditions during Parabolic Flight
..... S. OZAWA, M. WATANABE, Y. KIYAMURA, K. MOROHOSHI, T. AOYAGI, M. TANNO,
T. MATSUMOTO, M. ADACHI, A. MIZUNO, H. FUJII and T. HIBIYA • 215

(Original Article) Time-Resolved X-ray Diffraction during Container less Solidification of Zr-Based Alloys
..... A. MIZUNO, H. OKA, T. AKIMOTO, M. WATANABE, Y. YOKOYAMA, M. ITOU and S. KOHARA • 222

(Review) Developments of fundamental techniques of the electrostatic levitator for
the structural analysis by the x-ray scattering method
..... T. MASAKI, M. Noro, T. SATO, Y. YAMASHITA, J. T. OKADA and T. SHIKAWA • 227

【Solidification and Crystal Growth Researches in Containerless Environments】

(Review) Metastable Phase Formation from Undercooled MeltK. KURIBAYASHI • 233

(Review) Peritectic Alloy Rapid Solidification with Electromagnetic Convection
..... D. M. MATSON, R. W. HYERS and T. VOLKMANN • 238

(Review) Growth of Dendrites into Undercooled Melts under Microgravitational Conditions
..... D. HERLACH and P. GALENKO • 245

Information from the Society • 252
