Studies on Diffusion

【Column -35th Anniversary of IJMSA-】

JASMA Journal: “Mixture of unchangeability and openness to new changing things”

M. ISHIKAWA
350401

(Original Paper) Investigation of the Influence of Different Solute on Impurity Diffusion in Liquid Sn using the Shear Cell Technique

N. YAMADA, S. SUZUKI, K. SUZUKI, A. TANAKA, R. MORITA, C. CHE and G. FROHBERG
350402

(Original Paper) Effects of Container Materials on X-ray Fluorescence Spectra and Detection Time for In-situ X-ray Fluorescence Composition Analysis of Liquid Metals

M. SHIINOKI, Y. ANDO, H. FUKUDA, S. SUZUKI and T. MASAKI
350403

(Original Paper) Feasibility Study of in-situ Observation of Diffusion in Liquid Metals by using a Fluorescent X-ray Spectroscopy

K. FUJITA, Y. SHIMURA, S. SUZUKI and T. MASAKI
350404

【Column】 Let's DIY, CO₂ Laser

T. MASAKI
350405

Editorial Committee

M. Watanabe (Gakushuin University), Editor in Chief

K. Hasegawa (Kogakuin University)

T. Ishikawa (JAXA)

R. Imai (Muroran Institute of Technology)

O. Imamura (Nihon University)

O. Kawanami (University of Hyogo)

H. Kuhlmann (TUW, Austria)

T. Mieno (Shizuoka University)

V. Molotkov (JIHT, Russia)

H. Nagai (AIST)

S. Ozawa (Chiba Institute of Technology)

P.-F. Paradis (INO, Canada)

T. Shimaoka (JSF)

S. Suzuki (Waseda University)

T. Tagawa (Tokyo Metropolitan University)

H. Tanaka (Confocal Science Inc.)

H. Thomas (DLR, Germany)

I. Ueno (Tokyo University of Science)

K. Usuku (JAXA)

I. Yoshizaki (JAXA)

The journal is published quarterly by The Japan Society of Microgravity Application (O. Fujita, President).

Published 30 October 2018 © 2018 The Jpn. Soc. Microgravity Appl.
